

SLS (Selective Laser Sintering)

A pioneer in 3D printing, Quickparts offers quick-turn SLS printing, with extensive capacity, a wide range of materials, secondary operations with specialized sealants, and more.

Our 20+ years of experience give us the knowledge to help you make the best selections for your part or prototype's end use. From design for manufacturing review to high-quality finishing, we do it all.

General:

- Able to produce parts with highly complex geometries
- No support structure necessary
- Durable for high-heat and chemically resistant applications
- Impact-resistant parts for rigorous use
- Ideal for snap fits and living hinges
- Low-volume production solutions
- Major time and cost benefits

Lead Times:

Standard:
3 to 5 days

Special:
Next day

Typical Applications:

- General
- Rapid manufacturing
- Tooling and patterns
- Additive manufacturing

Dimensional Limitations

550 × 550 × 750 mm
(22" × 22" × 30")

Materials:

- DuraForm PA
- DuraForm ProX GF
- DuraForm HST
- DuraForm FR1200
- DuraForm TPU Elastomer
- Duraform Flex

Finishing:

Variety of finishing, from simple color dyeing through polishing and into full prime, paint, and color-matching services
