

Injection Molding

Quickparts brings decades of expertise to every injection molding project, delivering exceptional quality, speed, and accuracy. Our commitment to limitless manufacturing means no restrictions on size or complexity, with in-house production across the globe.

Why Quickparts?

No matter your project stage, we have a tooling line for you.

- **Rapid Molded Parts:** For first prototype parts in real production grade materials as quick as one week. **Maximum part size:** 80mm x 80mm x 50mm. **Tool life expectancy:** 250 parts. *Tools designed by Quickparts.*
- **Prototype Tooling and Parts:** For prototype parts for process validation, durability, reliability and crash tests. **Maximum part size:** 500mm x 500mm x 100mm. **Tool life expectancy:** 2,500 parts. *Tools designed by Quickparts.*
- **Low-Volume Manufacturing:** Pre-production parts up to 10,000 and production parts up to 50,000 at 100% production specs. **Maximum part size:** 1500mm x 1000mm x 350mm. **Tool life expectancy:** 10,000+ parts.

Quality - Our standard design for manufacturing review helps mitigate any potential issues.

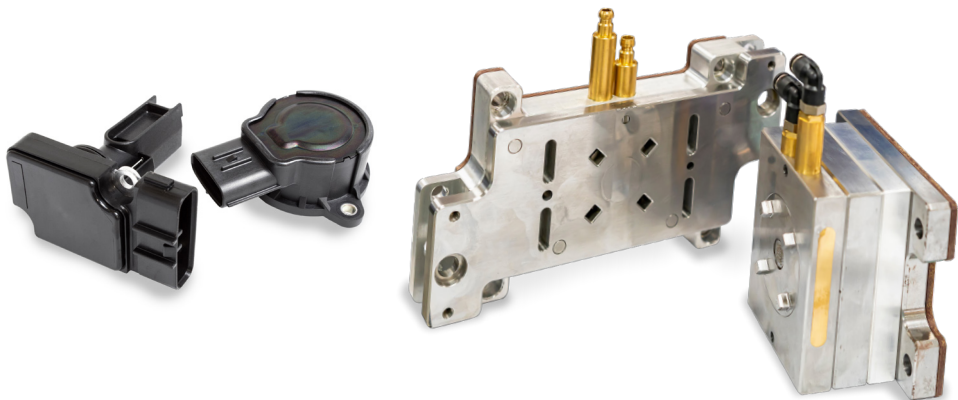

Experience - Over 25 years of experience in the industry and skilled operators with 10 years of experience on average.

Superior Customer Satisfaction - Over 3,000 satisfied customers.

Materials:

- ▶ Nylon 6
- ▶ Nylon 6/6
- ▶ PC
- ▶ PP
- ▶ ABS
- ▶ ABS/PC
- ▶ GF Materials
- ▶ All Custom Materials

Any custom finishes possible.
